AMERICAN
MEDICAL RECORDER.

CONDUCTED BY SEVERAL RESPECTABLE PHYSICIANS
OF PHILADELPHIA,

Nullius addictus jurare in verba magistri.—Hon.

VOL. I.

PHILADELPHIA:

PUBLISHED BY JAMES WEBSTER, NO. 24, SOUTH EIGHTH ST. CORNER
OF LODGE ALLEY.

W. Brown, Printer, Prune Street.

1818.

Eastern District of Pennsylvania, to wit :

BE IT REMEMBERED, That, on the twenty-fourth day of October, in the forty-third year of the Independence of the United States of America, A. D. 1818, James Webster, of the said District, hath deposited in this office the title of a book, the right whereof he claims as proprietor, in the words following, to wit :

"The American Medical Recorder. Conducted by several respectable physicians of Philadelphia. Nullius addictus jurare in verba magistri.—HOR.
"Vol. I."

In conformity to the act of the Congress of the United States, entitled "An act for the encouragement of learning, by securing the copies of maps, charts, and books, to the authors and proprietors of such copies, during the times therein mentioned."—And also to the act, entitled, "An act supplementary to an act, entitled 'An act for the encouragement of learning by securing the copies of maps, charts, and books, to the authors and proprietors of such copies, during the times therein mentioned,' and extending the benefits thereof to the arts of designing, engraving, and etching historical and other prints."

D. CALDWELL,
Clerk of the Eastern District of Pennsylvania.

ADVERTISEMENT.

THE first volume of the **MEDICAL RECORDER** is now completed. The materials of periodical publications, being drawn from a variety of sources, some diversity is, of course, to be expected, in regard to their value and importance. Of the merits of this volume it does not become the publisher to speak. He is, however, flattered with the hope, that it will be found to contain a respectable portion of useful and interesting matter.

All beginnings are difficult. The commencement of a periodical scientific publication is peculiarly so. Independent of the "slow pace of pecuniary patronage," the difficulty of gaining over a sufficient force of literary auxiliaries is not the least discouraging.

With ceaseless industry, the publisher has laboured to establish the **RECORDER** on a permanent foundation: he has made arrangements to continue it in a manner that will entitle it to the patronage of the American faculty. He will regularly receive the best English, German, and French Medical Journals, from which an abstract of the improvements of medicine abroad will be successively given in the Recorder.

Many physicians of acknowledged eminence have promised their aid to the Recorder.

Believing, therefore, that his resources are adequate to furnish an interesting Medical Journal, the publisher respectfully solicits the future patronage of the American medical public.

CONTENTS.

NO. I.

	PAGE.
I. Description of the University of Pennsylvania, with a plate, . . .	1
II. Observations on the Goitre. By James Mease, M. D. . . .	4
